

With combination of EAS and RFID, Virginland's Combo Tag not only enables retailers to prevent shoplifting, but also has the chasing and management function. Laser printing barcode in accord with RFID data can be etched on tag for easy scan and convenient use.

KEY FEATURES

- EAS and RFID combination
- Work with AM technology
- Strong and impact resistant
- Small footprint
- Sales, warehouse and logistics management

SUGGESTED APPLICATIONS

Leather, lingerie, silk, cashmere, chiffon and plastic package.
