# Virginland's EAS Seal Tag

The EAS Seal Tag can effectively prevent both wardrobing and shoplifting by consisting of a disposable lock and an EAS lock. The EAS lock can be removed with detacher at the check out. The disposable lock can be simply pulled out and removed by customers when they decide to not return the item. With the EAS Seal Tag's high visibility and security, our new solution helps retailers prevent both wardrobing and shoplifting at the same time.

## KEY FEATURES

- In AM 58KHz or RF 8.2MHz frequency
- Disposable tag
- Two locks function: EAS lock and disposable lock
- Small, attractive design
- Easy application
- Retailers don't need to deal with discarded tags
